CAREER OVERVIEW & ACHIEVEMENTS

ELMAN SIIVOUS OY – ESPOO

NOV 2019 – Present

Finance Manager

Review company income and expenses to calculate the annual percentage rate of return or profitability. Serve as the go-to expert on risk assessment, mitigation, and crisis response to identify potential threats and benefits to business objectives. Analyse financial statements, including balance sheets and income statements, to enable internal and external stakeholders to make informed decisions regarding investments.

Highlights:

- Maintained trusted relationships with 10 clients by timely responding to their needs and providing feedback.
- Handled multiple financial transactions, including G/L, AR & AP processing, and performing bank reconciliations.
- Scheduled paychecks and managed employees' monthly payroll and pensions.
- Examined key figures of financial reports to analyse profit & loss and cash flow.
- Performed filing and calculation of taxes, debts, and other financial information.
- Realised the company's full financial potential to discover revenue streams hidden within the business.
- Established new government contracts that doubled revenue growth during the pandemic from 150k to 300k.
